

ANNUAL COLOR PROGRAM

A POPULAR CHOICE FOR LANDSCAPES AND INTERIORSCAPES

Product Choices	Mixing	Area Drenched
The Landscaper's BioNutrition 3-0-3 Granular With Mycorrhizal	8 ounces - 1 lb. per 1,000 square feet (240 - 480 grams per 100 square meters)	Mix into soil when planting
Triple Ten 10-10-10 with 40% SRN	3 ounces per gallon of water (24 ml per liter)	1 gallon covers 100 square feet (1 liter cover 10 square meters)
The Classic 18-3-6 50% SRN Plus Micronutrients	3 ounces per gallon of water (24 ml per liter)	1 gallon covers 100 square feet (1 liter cover 10 square meters)
Essential® Plus 1-0-1 100% Natural Organic Liquid Soil Amendment	2 ounces per gallon of water (16 ml per liter)	1 gallon covers 100 square feet (1 liter cover 10 square meters)
Companion® Biological Fungicide	½ ounce per gallon of water (4 ml per liter)	1 gallon covers 100 square feet (1 liter cover 10 square meters)

Annual color transplants need to establish roots quickly in order to maintain flower integrity and plant strength, throughout the growing period. Annuals are very often planted in the same flowerbeds year after year. The use of Essential® Plus (liquid organic soil amendment and biostimulant) and Companion® will help to create healthier soil and plants, prevent diseases such as phytophthora, pythium, fusarium, and much more.

The Addition of Companion® Biological Fungicide and Essential® Plus Will:

- Increases root mass; Bacillus microbes produce plant growth regulators (PGRs), which help in cell division of delicate root hairs.
- Cleans root area; Bacillus feeds on dying/dead roots, eating away areas where diseases live.
- Adds organic carbon and improves soil structure.
- Provides a valuable food source for soil microbes.
- Builds simple and complex sugars, making plants stronger and more resistant to stress.
- Enhances blooms and plant life.

The Addition of Growth Products' Fertilizers:

- Will provide continuous feeding with slow release nitrogen.
- Won't burn roots, due to low salt index.
- Is easy to use because of liquid formulation.
